Policy on Photography and videotaping

Question: Can I take photographs or videotape the show?

Answer: Below are the various scenarios:

- Depending upon the rules of the auditorium we rent, flash photography and videotaping may be allowed with some restrictions. The information will be provided along with all the logistical details, closer to the date of the event.
- Some schools do not want their performances taped by anyone other than their own participants' families. In such cases, appropriate announcements will be made prior to their performance. However, we will not police such requests and **are not responsible for any blatant disregard of such requests/announcements**. If you have any reservations about anyone videotaping your performance, we suggest that you do not participate in the contests.
- As the event organizer, OSAAT will photograph and videotape the entire show. OSAAT reserves the right to use any video or photographs, for any purpose including but not limited to publicity such as post-event coverage, newsletters, advertisements, etc.
